AM ENVIRONMENTAL MANAGEMENT LIMITED

Environmental and Quality Management Policy

It is the aim of AM Environmental Management Limited to become a leader in the field of independent Waste Management and associated services, for example, Industrial Cleaning, through excellence in customer relations and environmental awareness.

AM Environmental Management Limited regard compliance with legislative and regulatory requirements and the promotion of environmental protection in general, as a primary objective.

AM Environmental Management Limited will take all practicable measures to operate within the framework of Environmental Management best practice and to achieve this aim, **WE WILL: -**

1. Ensure that all appointed sub-contractors meet, as a minimum, current and future legal requirements and pollution prevention which reflects best practice and equally exacting standards.
2. Work within the framework of an Environmental Management System including procedures and the setting of objectives and targets to achieve continual improvement.
3. Identify environmental performance ratings for individual disposal sites by a system of environmental audits, which set standards for the selection and engagement of contractors and suppliers with a view to encouraging sound environmental performance.
4. Promoting an awareness of environmental matters in all our employees, customers and suppliers.
5. Establishing procedures, which identify and minimise the risks to safety and the environment, associated with the identification, handling and transportation of dangerous goods compliant with all current and future legislation.
6. Communicating the Company's Environmental and Quality Management Policy to all its employees and making available to any other interested parties.
